Five Killed in Chicago.

Chicago, March 24.—Five persons were killed, fifty injured, thirty-two buildings wrecked and scores of structures damaged by a storm which swept over Chicago and suburbs early to-day.

Three of the dead were killed by falling debris; two met death by coming in contact with "live" wires.

The storm, which was accompanied by hail, rain, sleet, lightning and gale, which blew seventy miles an hour for a time, was felt most severely in the northwestern section of the city, where houses were overturned, windows broken, trees uprooted and electric light and trolley poles blown to the ground. Nearly fifty small fires resulted and hundreds of men, women and children fied from their homes in terror. Considerable damage was done to Desplaines, Park Ridge and other, suburbs.

Property damage in the city and suburbs is estimated at more than \$500,000.

Beautiful Opera Well Sung.

By way of proving again just how farsighted they are not, Milton and Sargent Aborn have followed this season precisely the same plan as that which last season prevented their exceedingly meritorious performances of grand opera from receiving more than a small part of the support from the Richmond public that they deserved.

Last season they sent here a wretched travesty on "The Bohemian Girl," following that a few months later with their admirable productions of "Madame Butterfly," "The Tales of Hoffmann." and "Lucia di Lammermoor," none of which was greeted by an audience of a size commensurate with the worth of the performance.

With absolute certainty and apparent case.

George Shields has a basso of full, round, resonant quality, which he handles with easy skill and sureness, while Charles with easy skill and sureness, while one of the other singers had more than a bit here and there, and the chorus also was inconspicuous.

Carlo Nicosia again directs the ordestra of some ten or twelve pieces, augmented by four or five of the house of the orchestra a perfect orchestral accompaniement and a series of numbers for the orchestra. Besides, he has so of them depends upon him for a lead, but all sing either from absolute certainty and apparent case.

ed from that experience, they sent to "Il Trovatore," and to-morrow night Richmond a few months ago an even more miserable production of "The Bohemian Girl," so miserable indeed, that, while the theatre-going public was disappointed by the first presentation of Belfel control of Parkers and the performances will be well worth hear ing.

by norses, dogs, pigs and other domestic animals, it was infuriated by the second infliction of that same equine, canine, and porcine exhibition.

In consequence of all which, only about half a house at the Academy of Music last night greeted the Aborn English Grand Opera Company's performance of "The Tales of Hoffmann," the first of the four operas to be sung during this engagement. And the Aborns have only themselves to blame!

# ARRESTED IN WASHINGTON

Leroy E. Brown, Said to Have Skipped Bail, Will Be Brought Back.

Leroy E. Brown, the contractor, who not long ago appealed from two fines, one of \$50 and another of \$25, imposed by Police Justice Crutchfield for alleged extreme cruelty to horses, was arrested yesterday in Washings ton, D. C., at the request of Chief of Police Werner on the charge of skipping his bond of \$500 for his appearance in the Hustings Court. The bond was furnished by W. J. Woodson, also a contractor.

Shortly after Brown's conviction in Police Court his wife reported him missing. He was located in a hospital in Cincinnati, having been picked up in the streets of that city in an almost helpless condition. The local police were notified, but no steps were taken in the matter.

When Brown's case was called before Judge D. C. Richardson last Thursday he failed to respond. It was afficuncted to the court that the defendant was ill in a hospital at Washington. The Washington police were communicated with and his arrest followed yesterday. Detective Atkinson will go for the prisoner to-day,

VICTOR ALLEN BACK IN CITY

The Governor continues to receive letters regarding the case, most of them approving his action in declining to interfere with the sentence of the courts. A large majority of the newspapers of the State have given their approval of his action. Appatheir approval of his action. Apparently there are many people who have seen fit to disregard his specific request not to be again approached in the matter, since some letters have been matter, since some letters have been mutation. It is understood he feels that there have been no developments whatever since his statement was given. whatever since his statement was given to the public, and that therefore there is no reason why he should change his

He has most evidently given up all hope, as has his father. Floyd Allen was more composed yesterday than he had been for a week.
